How do Clothes affect our behaviour in public and in private ?

Comment nos vetement influe t'il notre comportement en public et en privée

la tenu affect en effet le comportement d'une personne. Nous pouvons le voir notamment lorsque nous somme en privée, (famille amis, ect..) nous somme bien plus relacher que lorsque nous sommes en société. La tenue vestimentaire en dit beaucoup sur une personnes. Cependant lorsque nous sommes en famille nous avons pas besoin d'une tenue pour nous definir etant donnée que notre entourage nous connait. Par ailleur en exeterieur notre apparence est le premiere element nous mettant en contact avec les individu exterior. Des lors une tenue convenable est necessaire afin de pourvoir vivre tranquillement et sereinement en société. Nous pouvons dire qu'en societe nous jouons notre image afin de paraitre presentable et donc de pourvoir creer des lien. Cependant en famille meme si notre tenu doit rester respectable nous pouvons etre habiller librement

How our clothes influence our behavior in public and in private

Clothing affects a person's behavior. We can see it especially when we are in private, (family friends, ect..). We are much more relaxed than when we are in society. Clothing says a lot about a person. However when we in family we don't need an outfit to define us since those around us know us.

Moreover, on the outside, our appearance is the first element that puts us in contact with the outside world. From then on, a suitable outfit is necessary in order to be able to live quietly and serenely in society. We can say that in society we play our image in order to appear presentable and therefore to be able to create links. However, as a family, even if our outfit must remain respectable, we can dress freely

Are we defined by where we come from ?

My name is Mohammad Rezki. I am nineteen years old and I was born in north of France in Paris. I stayed two years in Paris before moving to the south, to St Laurent. When I was ten years old, I went to study abroad, in Morocco, I stayed for four years. This experience helped me a lot, it allowed me to see several different mentalities and ways of life. Then I came back to France and since then I have resumed my studies. It was surprisingly easy for me to adapt. I experienced many things during my childhood that made me who I am today. And I don't know how i could have been otherwise without going through all that or how would have been if I would have lived otherwise. Because life is the greatest education there is. Most people don't define us by where we come from but above all, by our appearance, our relationship, our behavior, and also lifestyle and more.

Je m'appelle Mohammad Rezki. J'ai dix-neuf ans et je suis né dans le nord de la France à Paris. Je suis resté deux ans à Paris avant de déménager dans le sud, à St Laurent. Quand j'avais dix ans, je suis parti étudier à l'étranger, au Maroc, je suis resté quatre ans. Cette expérience m'a beaucoup aidée, elle m'a permis de voir plusieurs mentalités et modes de vie différents. Ensuite je suis revenu en France et depuis j'ai repris mes études. C'était étonnamment facile pour moi de m'adapter. J'ai vécu beaucoup de choses pendant mon enfance qui font de moi ce que je suis aujourd'hui. Et je ne sais pas comment j'aurais pu être autrement sans vivre tout ça ni comment je serais si j'aurais vécu autrement. Car la vie est la plus grande éducatrice qui soit. La plupart des gens ne nous définissent pas par d'où nous venons mais surtout, par notre apparence, notre relationnel, nos comportements, et aussi mode de vie et plus encore.

**Nuance your opinion**

des refuge pour ukrainien mis en place de partt en europe.

De plus de negociation sur les sanction a faire valoir suite a cette guerre

le 19 aout macron

## Français

Les sanctions économique suite a la guerre entre l'Ukraine et la Russie. Lors de la sortie de cette article nous fêtons les 6mois depuis la déclaration de guerre par poutine a l'Ukraine. Soit le 24 février poutine lance une invasion contre l'Ukraine. Suite a cette agression de nombreux ukrainien vont être abattue.

Vladimir va revoir les liberté civil, les changer ect.

Putin va également montrer que les despote sont incompetent.

Des lors en Europe s'inquiète a la fois pour l'issue de cette guerre a la fois en terme de massacre. De plus d'un point de vue environnemental soit les effet secondaire de cette guerre. De ce fait pendant que l'Ukraine et la Russie se batte en France on essaie de mettre en place des solution, des sanction ect...

EN parallèle un pipeline est construit. Et 1,000 de dollars de gasoil.

Les état unis de leurs coter envoie des ressource en Ukraine. Et en Europe en général on va voir se mettre en place des refuge pour les ukrainien.

En Russie on assiste a de nombreux changement notamment militaire.

En enfin des sanction sont en cours de mise en place suite a cette guerre.

### **Quelles vont être les conséquence sur le monde suite a cette crise ?**

Suite cette guerre je pense que deux schéma sont possible. Dans un premiers il s'agit du cas on l'on se retrouve dans une crise qui s'élargie sur le monde et donc ce qui peut être devastateur puisque l'on va se retrouver dans un monde complètement chamboulé. Par ailleurs les pays vivant en autarcie quand a eux pourront peut être sortir de cette guerre mondiale. En outre on peut également pensé que cette guerre soit le 3eme guerre mondial.

Cependant une guerre mondial pourrait être supposer a partir du moment ou l'on retrouve cette notion de conquête. Or la crise actuelle se dirige plutôt vers une crise économique ce qui peut engendrer une crise de guerre par le manque de ressource dans un pays.

Quand a la deuxième possibilité, il s'agirait d'avoir un bon nombre de pays ayant le recul nécessaire afin de pouvoir palier cette crise a la fois économique politique et social. Des lors il s'agirait de retrouver une certaine entraide entre les différents pays. De plus il faudrait que les pays les plus développer apporte leurs aide aux pays les plus en difficulté. En effet cette guerre entre la Russie et l'Ukraine est toujours actuelle, mais elle le sera pas infiniment. Des lors la crise aura certainement une fin.

Reste a savoir si le monde aurait l'intelligence de passez cette guerre avec le minimum de dégâts possible et de palier cette crise avec le moins de difficulté ou alors va t'on faire les même erreur que les premières guerre mondial.

## Anglais

Economic sanctions following the war between Ukraine and Russia.

When this article comes out, we are celebrating 6 months since Putin declared war on Ukraine. Either on February 24 Putin launches an invasion against Ukraine. Following this aggression many Ukrainians will be shot. Vladimir will review civil liberties, change them, etc.

Putin will also show that despots are incompetent.

From then on in Europe is worried both for the outcome of this war and both in terms of massacre. In addition, from an environmental point of view, the side effects of this war. As a result, while Ukraine and Russia are fighting in France, we are trying to put in place solutions, sanctions, etc.

In parallel a pipeline is built. And \$1,000 worth of diesel.

The United States of their side sends resources to Ukraine. And in Europe in general we will see the establishment of refuges for Ukrainians.

In Russia we are witnessing many changes, especially military ones.

Finally, sanctions are being implemented following this war.

What will be the consequences on the world following this crisis?

Following this war I think that two schemes are possible. In the first case, we find ourselves in a crisis which is spreading over the world and therefore which can be devastating since we will find ourselves in a completely turned upside down world. In addition, the countries living in autarky when they will be able to get out of this world war. In addition we can also think that this war is the 3rd world war. However, a world war could be assumed from the moment we find this notion of conquest. However, the current crisis is heading more towards an economic crisis, which can lead to a war crisis due to the lack of resources in a country.

As for the second possibility, it would be a question of having a good number of countries with the necessary perspective in order to be able to overcome this crisis, both economic, political and social. From then on, it would be a question of finding a certain mutual aid between the different countries. In addition, the most developed countries should provide their aid to the countries most in difficulty. Indeed this war between Russia and Ukraine is still current, but it will not be infinitely so. From then on the crisis will certainly have an end.

It remains to be seen whether the world would have the intelligence to pass this war with the minimum possible damage and to overcome this crisis with the least difficulty or else we will make the same mistakes as the first world wars.

# New Sequence : The art of speech

To be Articulate  
To Mesmerize

## Axes : Act et pouvoir / Fiction et Réalités

### How is Political Power Staged ?

He is convincing, His Voice goes louder and louder, it goes crescendo

what about his body language ?

#### Observe

- a) I stood in **exactly** the wrong place.
- b) The people are **still** debating.
- c) **Eventually** he said, "I'm just the warm-up act."
- d) It sounded **almost** reasonable for a while.
- e) I **really** want to know more about adverbs!
- f) I'm not **very** interested in adverbs...
- g) **Honestly** it's a fascinating subject!

#### Retiens la règle

- L'**adverbe** se place normalement devant **ce sur quoi il porte**. The people are **still** debating.
- Il peut porter sur un mot ou un groupe de mots : un groupe nominal, un verbe et son complément, un adjectif, toute une proposition...

#### RETIENS AUSSI

- Quand l'**adverbe** porte sur toute une proposition, il peut se trouver à la fin ou au début de la phrase.  
I don't know much about adverbs, **really**,  
well, basically = phatique de langues
  - Quand l'**adverbe** porte sur le verbe :
    - on le place devant le verbe si celui-ci est constitué d'un seul élément,
    - mais entre les éléments 1 et 2 si ce verbe est constitué de deux parties (ou plus).
- I **really** enjoy grammar.      **Emphase**  
I don't **really** enjoy grammar.  
I would **really** have appreciated another exercise on the subject.

C'est une video qui touche les gens directement, meme s'il s'agit d'un speech preparer on voit que cette video convaient a travers du reve comme le pouvoir appartient au peuple.

## FINAL TASK

Write the

# President's Speech

The president is launching a competition for young writers. To enter, you must write a speech for him/her. Include notes and comments which will provide him/her with advice and help to make the speech more convincing.

Obama working on Health Care Speech during his first presidency

### STAGE 1

#### Brainstorm together

- 1 Decide on the main themes and ideas that need to be included in the speech.
- 2 Then think of keywords or catchphrases to make the speech memorable.
  - Hope, destiny, freedom...
  - "Keep the American Dream alive!"
  - "Where there's a will, there's a way!"

### STAGE 2

#### Organize your thoughts

Focus on the main themes, ideas and your keywords to create an outline of the speech. Start writing complete sentences out of the first draft.

- "A sad reality: America is in a miserable state right now... But America has always found ways to rise again."

### STAGE 3

#### Do it with style

Write the full version of the speech.

- Who's your target audience?
- Make references to a specific context but also to fundamental American or universal values.
- Quote other Presidents' words or actions.
- Explain his/her plans for the future, the first actions that he/she will take after this speech...
- Add details that will make the speech more memorable (an anecdote, a joke...).

### ★ Bonus ★

#### Give advice to the president

- 1 Give the president some insight on your creative process: state your intentions and the reasons behind your main ideas.
  - "I think this is a very important point to address, as your electorate is..."
- 2 Add notes and comments in a different color to help with his/her delivery and performance (tone, rhythm, emotions, mood, etc.).
  - "Here you need to lower your voice and slow down because this is a dramatic passage."
  - "There you stop talking and look everyone in the eye, as if you know every single spectator."

#### TIP

Proofread your speech and your notes and if you can, ask someone else to read them to give you some feedback!

\*in london it present 8.7 people. In the london it present 300 diffrentes languages. But london it's a street developed at for part. First one is london description. In london it present building and sky greater. Part two is london evolution. At time london change configuration : building creation and construction largest and tolest. And london create 30% econmie for british. At final in london
